I stated he and Foreign Minister needed a little time to consider Kennedy's speech and related documents before being in position to say precisely what GOP's position would be on such matters. Foreign Minister and I explained purpose of proposed COAS meeting tomorrow and I expressed hope to President that Ambassador Plate might receive instructions to support USG's position. I judge that he will, but probably not by 10:00 tomorrow.

President appreciated having received direct word from President Kennedy and is going to answer the letter.
